5301 VIRGINIA WAY  
SUITE 200  
BRENTWOOD, TN 37027

Dear Sam,

We are thrilled to share some exciting news with you! Our practice is now offering the MyCare Program, a Chronic Care Management (CCM) program specifically designed to help patients with GI-related chronic conditions get healthier, feel better, and improve the overall quality of their life. We believe this program can truly make a positive impact on your long-term health and well-being.

- The MyCare Program offers a range of benefits to eligible patients, including, access to a dedicated MyCare Coordinator, a Registered Dietitian, and a Patient Experience Team, all of whom are committed to ensuring that your virtual experience is exceptional. The best part? You do not have to come to the office for this program. It is offered through our telehealth platform, so you can participate from the comfort of your own home, and it should take very little of your time each month.
- In addition, we offer MyCare Device, which is a Remote Patient Monitoring (RPM) service. If you qualify, you can receive a digital scale that will allow you to conveniently transmit your health data from the comfort of your own home straight to your dedicated MyCare Coordinator.

We highly encourage you to consider enrolling in the MyCare Program if you qualify. Our goal is to provide you with the best care possible, keep you out of the hospital, save you money, and improve the quality of your life. We are confident that this program can help you achieve those outcomes.

Please **call our MyCare Coordinator at 615-XXX-XXXX** if you have questions about the MyCare Program or would like to enroll. It is very simple and should only take a few minutes.

Sincerely,  
Your Healthcare Team at MetaPhy Gastro
